

[Intro - soft harmony + spoken vibe]

Yeah...

This one's forever, baby

A love that don't fade...

Nah, not this one

[Verse 1]

You walked in, time froze, I swear

Everything 'round me disappeared

No one ever moved me like you do

Girl, you got that magic, it's true

Late nights, talkin' 'bout dreams and fears

Years went by, but you still right here

We done made it through storms and skies

But love like this never dies

[Pre-Chorus]

Even when the world goes dark

I know where to find your heart

Ain't no end, no finish line

We just livin' love that don't decline

[Chorus]

This is a love for all time

Something you don't just find

From your soul to mine

We shine, baby, we shine

Not just a moment, it's fate

Through every up and heartbeat

We still align...

This is a love for all time

[Verse 2]

When they said forever, I ain't know what it meant

'Til you came in and made me make sense

You saw the real me, no disguise

Now I see forever when I look in your eyes

We ain't perfect, but we workin' through

Ain't nobody else I'd rather lose to

You hold me down in ways I never knew

Girl, I owe this heart to you

[Pre-Chorus]

Even when we fight and fade

You remind me love don't break

It just bends and finds its way

Back where it all began...

[Chorus]

This is a love for all time

Something you don't just find

From your soul to mine

We shine, baby, we shine

Not just a moment, it's fate

Through every up and heartbreak

We still align...

This is a love for all time

[Bridge - falsetto layered with harmonies]

You my yesterday and my tomorrow

When I'm empty, girl, you're the refill I borrow

Ain't no clock tickin' on this kind

What we got's designed... to survive all time

[Breakdown - emotional moment]

Yeah... we been tested, we been tried

But we never say goodbye

We just hold on, we don't rewind

'Cause this love... it don't expire

[Final Chorus - vocal runs + ad libs]

This is a love for all time (ohhh yeah)

Something you don't just find (you don't just find)

From your soul to mine (soul to mine)

We shine, baby, we shine (we shine, baby)

Not just a moment, it's fate (nah)

Through every up and heartbreak

We still align...

This is a love... for all time

[Outro - soft ad libs fading out]

A love for all time, yeah yeah

Forever you and I...

Mmm...

This love... won't ever die
